

JR organics

HELPING YOU, HELP THE EARTH

Who are we?

Our Story

JR Organics opened its E-store in 2020 with the belief that sustainable living starts at home, at an individual level and with everyday personal care needs. This is why we launched a cost-effective portfolio of products, each designed to solely focus on your everyday needs.

Switch now and create a conscious consumption cycle that benefits everyone.

How do we differ from the rest?

- A big part of our mission is not only to sell sustainable personal care products, but also to educate and inspire our followers and customers. Particularly, on the importance of reducing our carbon footprint and the benefits of making the switch.
- Providing quality and cost-effective alternative solutions without compromise, allowing ease in transition.

Our Ethos

There is no doubt that sustainable living will be the way of the future. Our online sustainable E-store was born to support the acceleration of clean, sustainable and waste-free living that is inevitable.

Biodegradable

Through biodegradable products, we believe that we can help shift the market mindset. Switch with us – we provide a price competitive alternative solution. Be a benefactor to sustainable solutions.

Waste-free & All-natural

JR Organics is committed to selling high quality, natural products that are earth-friendly. We help reduce carbon footprint by using all-natural, waste free raw materials. From product to packaging. These are key in our sustainable solution.

No toxic chemicals

We want to live in a way that betters our planet and reduces exposure to artificial chemicals. This is why our portfolio provides a variety of vegan-friendly and BPA-free products to suit your needs.

Our Product Portfolio
